

Journal of Air Transport Management

Call for papers: “VSI: ATRS 2023”

This call is for papers that were presented at the 26th Air Transport Research Society (ATRS) Conference organized in Kobe from July 1 to July 4, 2023. Authors who presented papers at the conference are invited to submit their (revised) studies for publication in the dedicated Virtual Special Issue (VSI) of the Journal of Air Transport Management.

We are looking for rigorous studies in the areas of economics, management and operations. Eligible authors must submit via the journal's Editorial Manager platform using Elsevier's online publication submission process by selecting "VSI: ATRS 2023". The submission window is now open and will remain open until 15 March 2023.

Please note the following restrictions. First, the paper must have been presented at the ATRS Conference in Kobe. Second, we limit authors AND co-authors to a maximum of one paper to encourage diversity of topics and authors. For example, it is not possible, for this same Special Issue, for author X to submit a paper (with or without other co-authors) and for author Y to submit another paper where author X is a co-author.

The guest editors are Christian Bontemps from ENAC and Toulouse School of Economics, Anne Lange from Frankfurt University of Applied Sciences and Yulai Wan from Hong Kong Polytechnic University.
